### Safety notes

• WARNING: This product can expose you to lead which is known to the State of California to cause cancer and reproductive harm. For more information go to www.p65warnings.ca.gov

#### **Product features**

| Application      | Water-side control of heating and cooling systems for AHUs and water coils.  |
|------------------|--|
| Operation        | The Energy Valve is an energy metering pressure independent control valve that measures, documents and optimises water coil performance. |
| Flow measurement | *All flow tolerances are at 68°F [20°C] & water.   |

#### Accessories

- 3 = white
- 5 = orange
- 6 = pink
- 7 = grey

### X INSTALLATION NOTES

A Actuators with appliance cables are numbered.

Actuators may be connected in parallel. Power consumption and input impedance must be observed.

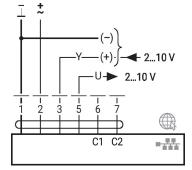

Actuators may also be powered by DC 24 V.

Actuators with plenum cable do not have numbers; use color codes instead.

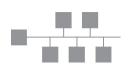

Meets cULus requirements without the need of an electrical ground connection.

## /\/ Warning! Live electrical components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.

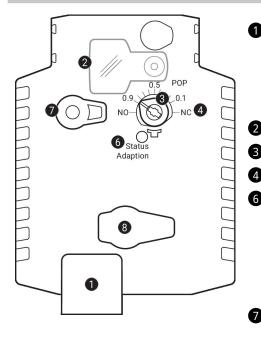

Connection of a notebook for parametrisation and manual control via RJ45.

Optional connection via RJ45 (direct connection to notebook / connection via Intranet or Internet) for access to the integrated web server

### **Operating controls and indicators**
